

Comparison between pinokio and ollama

Date: 26/9/2025

Executive Summary

Ollama wins 8 out of 9 categories. Ollama is better for specialized AI work, while Pinokio only wins for complete beginners.

Category Breakdown

Medical AI

Ollama 9/10 | Pinokio 3/10

- Ollama: Has Med42-v2 (beats GPT-4), MedLlama2, MediChat models trained on medical data
- Pinokio: No medical models available

Programming

Ollama 9/10 | Pinokio 4/10

- Ollama: DeepSeek-Coder, CodeLlama with 87% accuracy across 40+ languages
- Pinokio: No coding models, connection issues

Mathematics

Ollama 8/10 | Pinokio 5/10

- Ollama: Llama 3.1 70B, Qwen2.5 for advanced math reasoning
- Pinokio: Only general models, no math specialization

General Chat

Ollama 9/10 | Pinokio 7/10

- Ollama: 200+ models, full control, works offline
- Pinokio: Nice interface but limited model selection

Privacy & Offline

Ollama 10/10 | Pinokio 6/10

- Ollama: Complete offline execution, no data transmission
- Pinokio: Some dependencies, less privacy control

Ease of Use

Ollama 7/10 | Pinokio 9/10 (*Pinokio's only win*)

- Ollama: Requires command line knowledge
- Pinokio: One-click installs, visual interface

Final Verdict

Ollama is clearly better for 89% of use cases. For your technical background and AI development work, Ollama is the right choice. Pinokio only makes sense for complete beginners who want zero learning curve.
